RAILING PROFILES STRENGTH

Our railing profiles are high quality and were designed to be used on low-rise, mid-rise, and high-rise buildings. Our profiles are made from alloy 6005-T6 or 6061-T6.

RAILING PROFILES COLOURS - PPG EXTRUSION COATINGS

ACRYNAR Architects and specifiers want coatings that provide an attractive appearance throughout a building's lifetime. ACRYNAR coatings' combination of improved mar resistance and excellent weatherability make them an intelligent choice for use in high traffic areas such as store fronts, schools, hospitals, and high-rise condominiums.

DURANAR DURANAR extrusion coatings provide outstanding durability and performance in a variety of exterior architectural applications. Commercialized over 30 years ago, they have gained worldwide recognition as the leader in high performance, low maintenance coatings.

NR&D - Model 1

*Continuous Handrail w/
Glass Panel Between Post*

Floor Fixation

Railing Options Available

Glass Infill — 5–12mm
