ABOUT US

Norfinch is a full-service supplier of:

- BALCONY GUARD RAILING
- GLASS SHOWER ENCLOSURE
- GLASS SHOWER DOOR
- MIRRORS
- PORCH COLUMNS.

We supply high-quality columns and guard railing made from the best structurally sound materials.

Having been in the business for years, we've earned ourselves a reputation for providing an extensive inventory of materials, the best prices, and supplying nothing short of quality products.

Whether it's for your porch, balcony, or deck, our products will have your columns and railings looking their best. Our materials meet all structural and technical standards and are guaranteed to give your house or building a premium look it deserves. Simply put, Norfinch got your columns and guardrails needs covered..

OUR MISSION

Norfinch was founded on three core values;

- INTEGRITY
- HONESTY
- STRONG WORK ETHICS.

These values are important to us and our customers, and they have been the driving force of our business as we strive to meet and exceed our customer's expectations in terms of quality, standards, and otherwise.

WHY CHOOSE US?

One thing that makes us different from the rest is our ability to provide a tailor-made service that takes into consideration your every need by providing the perfect materials for your project. We go above and beyond to offer ideas and concepts that will help you ultimately make the best decision for your house or building.

As a business, our core values lie in providing top-of-the-line products along with premium services that prove our willingness to always go the extra mile to guarantee our customer's total satisfaction.

Frameless Glass Shower Enclosures

Norfinch Railing & Design Inc. offers high quality frame-less shower doors that can be custom cut to fit into any shower or bath opening you have. We only use name brand products that are guaranteed not to rust nor deteriorate with time.

Our company knows the impact a shower unit will have on the look and feel of your bathroom. Our #1 concern is your safety, all our shower units use tempered glass. Our professional glass technicians will take an exact measurement for your glass project; for convenience you can get a quick estimate for installation over the phone.

Our frameless shower units have no frame around its edge of the glass and are 3/8" or 1/2" in thickness. Instead of using a frame to hold the unit to the opening, frameless shower units use beautiful hinges that come in a wide range of colors, the most common being brass and chrome. The overall massive appearance of a frameless shower unit adds a unique look to your bathroom.
