

# Niagara Falls

6719 Thorold Stone Rd

We utilized our standard aluminum picket railing featuring 3-inch square posts. The railing is finished with a black powder coating, exhibiting a fine sand texture. The powder-coating material employed complies with the AAMA 2603 specifications pertinent to this project.

The scope of our work entailed the provision and installation of aluminum picket railing across all terraces in this townhouse development.

## Railing Materials:

- Post - 6005-T6
- All other Aluminum parts 6005-T6
- Screen - Tempered safety Glass
